

INDEX OF SUBJECTS

Original articles

- Abnormal hemoglobins, nomenclature of, 393
- ABO and Rh groups, hemagglutination reaction of mothers and infants of different, 482
- Abscesses, chronic subcutaneous, caused by pigmented fungi, 598
- Abstracts of scientific papers of annual ASCP meeting, September 1962, 294
- Abstracts of special papers of Council on Clinical Chemistry, ASCP annual meeting, September 1962, 395
- Acetone and acetone bodies in serum, 206
- Acid-fast bacilli, saprophytic, in granulomas, 182
- Acid phosphatase, seminal stain, prostatic origin of, 583
- Acquired hemolytic anemia, 284
- Acrylamide gel, electrophoresis of serum proteins in, 193
- Adenoma originating in struma ovarii, 383
- Adenomatoid tumors, ameloblastic, 59
- Adsorbates of raw and finished water supplies, carcinogenic effects of, 475
- Alkaline phosphatase, leukocyte, cytochemistry of, 439
- Ameloblastic adenomatoid tumors, 59
- Ammonia nitrogen in plasma, determination of concentration of, 97
- Analyses, radiochemical, samples of human bone for (letter), 293
- Analyses with heat-coagulated blood and serum, 342
- Analysis, clinicopathologic, of "sporadic goiter syndrome," 241
- Anaphylactic, fatal, reactions to wasp stings, 485
- Anatomic pathology
 - ameloblastic adenomatoid tumors, 59
 - bone marrow
 - Reed-Sternberg cells, 115
 - extremity
 - lipomas of thigh, 66
 - eye
 - iris tumors, 214
 - gross specimens
 - restoration of, 364
 - heart
 - arteriosclerosis of aortic sinuses, 506
 - carcinoid disease, 46
 - diffuse fatty degeneration of myocardium, 365
 - intramural fibroma, 374
 - hemopoietic system
 - hereditary spherocytosis, 284
 - kidney
 - salt poisoning in infants, 252
 - xanthogranulomatous pyelonephritis, 616
 - laminated macrosections, 54
 - lipids and lipoproteins
 - uptake of lipid stains, 329
 - mycosis
 - disseminated penicilliosis, 167
 - nervous system
 - medulloblastomas, 148
 - presacral ependymoma, 161
 - ovary
 - adenoma in struma ovarii, 383
 - pancreas
 - islet cell carcinoma, 137
 - prostate gland
 - atypical cells of seminal vesicles, 265
 - skin
 - biopsy for cytogenetic investigations, 593
 - chronic subcutaneous abscesses, 598
 - spleen
 - secondary lipidosis with thrombocytopenia, 607
 - thyroid gland
 - "sporadic goiter syndrome," 241
 - uterus
 - carcinosarcoma, 496
 - endometrial stromal sarcoma, 273
 - vascular
 - leiomyosarcoma, 73
- An extremely simple test (editorial), 630
- Anti-B isohemagglutinins in serum, with a weak red cell B antigen, 355
- Antibiotic sensitivity of staphylococcal infections, 586
- Antiglobulin tests, false-positive, in reticulocytosis, 645
- Aortic sinuses, arteriosclerosis of, 506
- Apparatus
 - automatic diluting buret (letter), 326
 - convenient pipet rack, 114
 - electronic particle counter enumeration of multispecies blood cells, 349
 - evaluation of the Sanborn cell counter, 104
 - improved tissue-freezing apparatus for cryotomes, 324
 - infrared heat lamp for paraffin embedding and blocking, 85
 - measuring spoon as substitute for weighing dehydrated bacteriologic mediums, 546
 - microelectrophoresis and quantitation of hemoglobins on cellulose acetate, 567
 - modified stage for microscopes (letter), 112
 - new device for collecting capillary blood, 661
 - revised device to assure storage battery current for colorimeters, 656

Original articles—Continued**Apparatus—Continued**

rotating microscope stage for urine sediments, 209

Sanborn-Frommer particle counter for counting leukocytes, 541

simple parabiotic chamber for cell culture studies, 175

substitute for glass coverslips, 177

Application and standardization of staphylococcal phage-typing, 184

Aqueous, urinary total, and ether-soluble porphyrins, 531

Arteriosclerosis of the aortic sinuses, 506

Atypical cells of origin from seminal vesicles, 265

Automatic diluting buret (letter), 326

Award, Ward Burdick, contribution, 214

B (anti) isohemagglutinins in serum, 355

Bilirubin standard, uniform, 90

Biopsy of skin for cytogenetic investigations, 593

Blood banking

B (anti) isohemagglutinins in serum, 355

bromelin Rh slide test for typing patients prior to transfusion, 129

hemagglutination reaction of mothers and infants of different ABO and Rh groups, 482

Blood determinations, effect of tourniquet-induced stasis on, 134

Blood dyscrasias treated with steroids, associated with secondary lipidosis of spleen, 607

Blood, heat-coagulated, analyses performed with, 342

Blood, leukocytes from small samples of, 433

Blood, venous, for standard clotting time, 321

Blood, whole, effect of red cell factors on relative viscosity of, 464

Boeck's sarcoid, 83

Bone, diseases of, 178

Bone marrow, Reed-Sternberg cells in, 115

Bone, samples of, for radiochemical analyses (letter), 293

Bromelin Rh slide test for typing patients for transfusion, 129

Burdick award contribution, 214

Buret, automatic diluting (letter), 326

Capillary blood, new device for collecting, 661

Carcinogenic effects of adsorbates in water, 475

Carcinogenesis, nickel, 549

Carcinoid heart disease, 46

Carcinoma of pancreas, islet cell, 137

Carcinosarcoma of the uterus, 496

Cat-scratch disease, 516

Cell counter, Sanborn, evaluation of, 104

Cell culture studies in parabiotic chamber, 175

Cellulose acetate, microelectrophoresis and quantitation of hemoglobins on, 567

Ceruloplasmin tanning of fluorescent fibrin, 46

Chemistry

acetone and acetone bodies in serum, 206

automatic diluting buret (letter), 326

clinical test for galactosemia, 579

comparison of immunologic and toad test for pregnancy, 436

device to assure storage battery current for colorimeters, 656

dithione and polarographic determinations for lead, 652

effect of tourniquet-induced stasis on blood determinations, 134

electrophoresis of serum proteins in acrylamide gel, 193

estimation of cholesterol in serum, 311

false-positive antiglobulin tests in reticulocytosis, 645

heat-coagulated blood and serum, analyses performed with, 342

identification of semen, laboratory procedure for, 316

identifying and determining "purity" of thyroglobulin, 462

ion exchange method for determining concentration of ammonia nitrogen in plasma, 97

Maltese cross phenomenon in urine sediments, 419

method for collection and radioassay of specimens of human stools, 203

microelectrophoresis and quantitation of hemoglobins on cellulose acetate, 567

nickel carcinogenesis, 549

new device for collecting capillary blood, 661

nomenclature of abnormal hemoglobins, 393

paper chromatographic differentiation of phenothiazines in toxicology, 648

prostatic origin of seminal stain acid phosphatase, 583

serum optical density method for excluding malabsorption, 456

stable suspension of hemoglobin, 659

total protein nitrogen ratio of human serum, 42

total serum cholesterol analysis with gas-liquid chromatography, 450

urinary total, aqueous, and ether-soluble porphyrins, 531

Cholesterol in serum, improved techniques for estimation of, 311

Cholesterol, total serum, analysis with gas-liquid chromatography, 450

Chromoblastomycosis, cutaneous, 598

Chromatography, gas-liquid, analysis of total serum cholesterol, 450

Chronic subcutaneous abscesses caused by pigmented fungi, 598

Clinical pathology of iris tumors, 214

Clinical pathology, new field of, 3

- 46 Collection and radioassay of specimens of human stools, 203
- Colorimeters, revised device to assure storage battery current for, 656
- Comparison of immunologic and toad test for pregnancy, 436
- Correction, 72
- Council on Clinical Chemistry, abstracts of special paper, 395
- Counting leukocytes, evaluation of Sanborn-Frommer particle counter for, 541
- Coverslips, glass, substitute for, 177
- Cryotomes, improved tissue-freezing apparatus for, 324
- Culture studies in parabiotic chamber, 175
- Cytochemistry
leukocyte alkaline phosphatase, 439
prostatic origin of seminal stain acid phosphatase, 583
- Cytochemistry of leukocyte alkaline phosphatase, 439
- Cytogenetic investigations, simple technic for biopsy of skin for, 593
- Cytogenetics, recent advances in new field of clinical pathology, 3
- Cytology
atypical cells of origin from seminal vesicles, 265
- Diffuse fatty degeneration of myocardium, 365
- Diluting buret, automatic (letter), 326
- Dimethoxyphenyl penicillin, relation to staphylococcal infections, 586
- Disseminated penicilliosis, 167
- Distant metastases from medulloblastomas, 148
- Dithizone and polarographic determinations for lead, 652
- Drop method, falling, for determination of specific gravity of urine, 235
- Eggs of helminthic parasites of man, 512
- Electronic determinations of red cell volume, 38
- Electrophoresis of serum proteins in acrylamide gel, 193
- Endocrinology
comparison of immunologic and toad test for pregnancy, 436
formula for results of uptake of L-triiodothyronine- I^{131} by red blood cells, 562
identifying and determining "purity" of thyroglobulin, 462
latex flocculation test in diagnosis of pregnancy, 589
- Endometrial stromal sarcoma, 273
- Electronic particle counter for enumeration of multispecies blood cells, 349
- Ependymoma, presacral, 161
- Erroneous diagnoses of *Escherichia coli* infections with fluorescent antibody technics, 198
- Erythropoiesis, reticulocyte count as indicator of rate of, 121
- Escherichia coli* infections, erroneous diagnoses of, with fluorescent antibody technics, 198
- Ether-soluble porphyrins, 531
- Evaluation of Sanborn cell counter, 104
- Falling drop method for determining specific gravity of urine, 235
- False-positive antiglobulin tests in reticulocytosis, 645
- Fatal anaphylactic reactions to wasp stings, 485
- Fibrin tanning with 5-hydroxytryptamine and ceruloplasmin, 46
- Fibroma, intramural, of the heart, 374
- Fluorescent antibody technics, erroneous diagnoses of *Escherichia coli* infections by, 198
- Fluorescent fibrin tanning with 5-hydroxytryptamine and ceruloplasmin, 46
- Formula for expression of results of uptake of L-triiodothyronine- I^{131} by red blood cells, 562
- Freezing apparatus for cryotomes, 324
- Galactosemia, clinical test for, 579
- Gas-liquid chromatography for analysis of total serum cholesterol, 450
- Genetics
biopsy of skin for cytogenetic investigations, 593
cytogenetics, new field of clinical pathology, 3
Glass coverslips, substitute for, 177
"Goiter syndrome, sporadic," 241
Gonorrhea, clinical syndrome resembling, 360
Granuloma, noncaseous, 83
Granulomas, saprophytic acid-fast bacilli in, 182
Greater saphenous vein, leiomyosarcoma of, 73
- Heart, intramural fibroma of, 374
- Heat-coagulated analyses of blood and serum, 342
- Heat lamp, infrared, for paraffin embedding and blocking, 85
- Helmenthic parasites of man, 512
- Hemagglutination reaction of mothers and infants of different ABO and Rh groups, 482
- Hematology
effect of tourniquet-induced stasis on blood determinations, 134
electronic particle counter for enumeration of multispecies blood cells, 349
hereditary spherocytosis and infectious mononucleosis, with acquired hemolytic anemia, 284
microelectrophoresis and quantitation of hemoglobins on cellulose acetate, 567
new device for collecting capillary blood, 661
nomenclature of abnormal hemoglobins, 393

Original articles—Continued**Hematology—Continued**

- obtaining leukocytes from small samples of blood, 433
- osmotic error in electronic determinations of red cell volume, 38
- red cell factors effect on relative viscosity of whole blood, 464
- reticulocyte count as indicator of rate of erythropoiesis, 121
- Sanborn-Frommer particle counter for counting leukocytes, 541
- secondary lipidosis of spleen associated with thrombocytopenia, 607
- stable suspension of hemoglobin, 659
- "Swiss cheese" nuclei, incubation-induced lesion of infectious mononucleosis lymphocytes, 492
- venous blood in capillary tubes, for standard clotting time, 321
- Hemoglobin, stable suspension of, 659
- Hemoglobins, abnormal, nomenclature of, 393
- Hemoglobins, microelectrophoresis and quantitation of, on cellulose acetate, 567
- Hereditary spherocytosis and infectious mononucleosis, with acquired hemolytic anemia, 284
- Histochemistry
 - cytochemistry of leukocyte alkaline phosphatase, 439
 - prostatic origin of seminal stain acid phosphatase, 583
- Hydroxytryptamine and ceruloplasmin tanning of fluorescent fibrin, 46
- Identification of semen, 316
- Immunohematology
 - anti-B isohemagglutinins in serum of patient with weak red cell B antigen, 355
 - bromelin Rh slide test for rapidly typing patients prior to transfusion, 129
 - false-positive antiglobulin tests in reticulocytosis, 645
 - hemagglutination reaction of mothers and infants of different ABO and Rh groups, 482
 - red cell factors effect on relative viscosity of whole blood, 464
- Immunologic test for pregnancy, 436
- Immunology
 - false-positive antiglobulin tests in reticulocytosis, 645
 - fatal anaphylactic reactions to wasp stings, 485
- Improved tissue-freezing apparatus for cryotomes, 324
- Indole-spot test in bacteriology, 429
- Infants, acute salt poisoning in, 252
- Infections, erroneous diagnoses of *Escherichia coli*, 198
- Infectious mononucleosis and acquired hemolytic anemia, 284
- Infectious mononucleosis lymphocytes and "Swiss cheese" nuclei, 492
- Infiltrating lipomas of the thigh, 66
- Infrared heat lamp for paraffin embedding and blocking, 85
- Intramural fibroma of the heart, 374
- Ion exchange method for determining concentration of ammonia nitrogen in plasma, 97
- Iris tumors, clinical pathology of, 214
- Islet cell carcinoma of pancreas, 137
- Isohemagglutinins, anti-B, in serum of patient with weak red cell B antigen, 355
- Laboratory procedure for identification of semen, 316
- Laminated macrosections of organs, 54
- Latex flocculation test for pregnancy, 589
- Lead, determinations with dithizone and polarography, 652
- Leiomyosarcoma of greater saphenous vein, 73
- Leukocyte alkaline phosphatase, cytochemistry of, 439
- Leukocytes from small samples of blood, 433
- Leukocytes, Sanborn-Frommer particle counter for counting, 541
- Lipidosis of spleen with thrombocytopenia, 607
- Lipid stains, uptake of, by lipids and serum lipoproteins, 329
- Lipomas of thigh, infiltrating, 66
- Lipoproteins, serum, uptake of lipid stains by lipids and, 329
- Long survival with islet cell carcinoma of pancreas, 137
- Lymphocytes, infectious mononucleosis and "Swiss cheese" nuclei, 492
- Macrosections of organs, laminated, 54
- Malabsorption, serum optical density method for excluding, 456
- Malignant mixed mesodermal tumor of uterus, 496
- Maltase cross phenomenon in sediments from urine, 419
- Measuring spoon as substitute for weighing dehydrated bacteriologic mediums, 546
- Medulloblastomas with distant metastases, 148
- Methemoglobin-galactose test for galactosemia, 579
- Microbiology
 - cat-scratch disease, 516
 - indole-spot test in bacteriology, 429
 - isolation of *Neisseria catarrhalis* from patients with urethritis and clinical syndrome resembling gonorrhea, 360

- measuring spoon as substitute for weighing dehydrated bacteriologic mediums, 546
 micro method for detecting utilization of phenylalanine by microorganisms, 544
 noncaseous granuloma and Boeck's sarcoid, 83
 present application and standardization of staphylococcal phage-typing (letter), 184
 saprophytic acid-fast bacilli in granulomas, 182
 serologic relations leading to erroneous diagnoses of *Escherichia coli* infections with fluorescent antibody technics, 198
 staphylococcal infections and antibiotic sensitivity, 586
 Microelectrophoresis and quantitation of hemoglobins on cellulose acetate, 567
 Micro method for detecting utilization of phenylalanine by microorganisms, 544
 Microscopes, modified stage for (letter), 112
 Microscope stage for urine sediments, rotating, 209
 Modified stage for microscopes (letter), 112
 Mononucleosis and acquired hemolytic anemia, 284
 Mononucleosis lymphocytes, infectious, and "Swiss cheese" nuclei, 492
 Morphology of Reed-Sternberg cells in bone marrow, 115
 Multispecies blood cells, electronic particle counter for enumeration of, 349
 Mycology
 chronic subcutaneous abscesses caused by pigmented fungi, 598
 Myocardium, diffuse fatty degeneration of, 365
Neisseria catarrhalis, isolation of, from patients with urethritis and clinical syndrome resembling gonorrhea, 360
 Nickel carcinogenesis, 549
 Nomenclature of abnormal hemoglobins, 393
 Noncaseous granuloma and Boeck's sarcoid, 83
 Nuclei, "Swiss cheese," incubation-induced lesion of infectious mononucleosis lymphocytes, 492
 Oncology
 carcinogenic effects of adsorbates of water, 475
 carcinosarcoma of uterus, 496
 nickel carcinogenesis, 549
 Optical density, serum, evaluation for excluding malabsorption, 456
 Osmotic error in electronic determinations of red cell volume, 38
 Pancreas, islet cell carcinoma of, 137
 Patients, pancreas, lesions of, 289
 Syndrome, paper chromatographic differentiation of phenothiazines in toxicology, 648
 Parabiotic chamber for cell culture studies, 175
 Paraffin embedding and blocking with infrared heat lamp, 85
 Penicilliosis, acute disseminated, 167
 Phage-typing, staphylococcal, application and standardization of (letter), 184
 Phenomenon, Maltese cross, in sediments from urine, 419
 Phenothiazines in toxicology, paper chromatographic differentiation of, 648
 Phenylalanine, micro method for detection of utilization of, by microorganisms, 544
 Phosphatase, leukocyte alkaline, cytochemistry of, 439
 Phosphatase, seminal stain acid, demonstration of prostatic origin of, 583
 Pigmented fungi causing chronic subcutaneous abscesses, 598
 Pipet rack, convenient, 114
 Plasma, determination of concentration of ammonia nitrogen in, with simple ion exchange method, 97
 Poisoning, salt, in infants, 252
 Polarographic and dithizone determinations for lead, 652
 Porphyrins, ether-soluble, urinary total, aqueous, and, 551
 Pregnancy, immunologic and toad test for, 436
 Pregnancy, latex flocculation test for diagnosis of, 559
 Presacral ependymoma, 161
 Presidential address, 229
 Preventive clinical pathology (letter), 633
 Procedures
 acetone and acetone bodies in serum, 206
 biopsy of skin for cytogenetic investigations, 593
 comparison of immunologic and toad test for pregnancy, 436
 cytochemistry of leukocyte alkaline phosphatase, 439
 device to assure storage battery current for colorimeters, 656
 dithizone and polarographic determinations for lead, 652
 effect of tourniquet-induced stasis on blood determinations, 134
 electronic determinations of red cell volume, osmotic error in, 38
 electrophoresis of serum proteins in acrylamide gel, 193
 estimation of cholesterol in serum, improved technics, 311
 evaluation and calibration of electronic particle counter for enumeration of multispecies blood cells, 349
 evaluation of Sanborn cell counter, 104

Original articles—Continued**Procedures—Continued**

- falling drop method for determination of specific gravity of urine, 235
- false-positive antiglobulin tests in reticulocytosis, 000
- formula for expression of results of uptake of L-triiodothyronine- I^{131} by red blood cells, 562
- heat-coagulated blood and serum analyses, 342
- identification of semen, 316
- identifying and determining "purity" of thyroglobulin, 462
- improved tissue-freezing apparatus for cryotomes, 324
- infrared heat lamp for paraffin embedding and blocking, 85
- ion exchange method for determination of concentration of ammonia nitrogen in plasma, 97
- laminated macrosections of organs, 54

 Sanborn-Frommer particle counter for counting leukocytes, 541
 Saphenous vein, leiomyosarcoma of the greater, 73
 Saprophytic acid-fast bacilli in granulomas, 182
 Sarcoid, Boeck's, 83
 Sarcoma, endometrial stromal, 273
 Scientific papers (abstracts of) of annual meeting of ASCP, September 1962, 294
 Secondary lipidosis of spleen, with thrombocytopenia, 607
 Sediments, urine, rotating microscope stage for, 209
 Semen, laboratory procedure for identification of, 316
 Seminal stain acid phosphatase, prostatic origin of, 583
 Seminal vesicles, atypical cells of origin from, 265
 Serologic relations leading to erroneous diagnoses of *Escherichia coli* infections, 198
 Serum cholesterol analysis with gas-liquid chromatography, 450
 Serum, heat-coagulated analyses, 342
 Serum lipoproteins, uptake of lipid stains by lipids and, 329
 Serum optical density method for excluding malabsorption, 456
 Simple test, an extremely (editorial), 630
 Skin, vesicular lesions of, 389
 Specific gravity of urine, falling drop method determination of, 235
 Specimens, restoration of rust-stained formalin-preserved gross, 364
 Spherocytosis, hereditary, with acquired hemolytic anemia, 284
 Spleen, secondary lipidosis of, with thrombocytopenia, 607
 "Sporadic goiter syndrome," 241
 Stable suspension of hemoglobin, 659
 Stage for microscopes, modified (letter), 112
 Staining
 cytochemistry of leukocyte alkaline phosphatase; complex naphthol AS phosphates in azo dye-coupling techniques, 439
 uptake of lipid stains by lipids and serum lipoproteins, 329
 Standard clotting time, with whole venous blood in capillary tubes, 321
 Standard, uniform bilirubin, 90
 Staphylococcal infections and antibiotic sensitivity, 586
 Staphylococcal phage typing, standardization of (letter), 184
 Stasis, tourniquet-induced, on blood determinations, 134
 Stomach, lesions of, 79
 Stools, collection and radioassay of specimens of, 203
 Stromal sarcoma, endometrial, 273
 Struma ovarii, adenoma originating in, 383
 Subcutaneous abscesses caused by pigmented fungi, 598
 Substitute for glass coverslips, 177
 Survival with islet cell carcinoma of pancreas, 137
 "Swiss cheese" nuclei, incubation-induced lesion of infectious mononucleosis lymphocytes, 492
 Tests
 bromelin Rh slide test for rapidly typing patients prior to transfusion, 129
 comparison of immunologic and toad test for pregnancy, 436
 galactose-methemoglobin test, 579
 indole-spot test in bacteriology, 429
 latex flocculation test in diagnosis of pregnancy, 589
 Thigh, infiltrating lipomas of, 66
 Thrombocytopenia and secondary lipidosis of spleen, 607
 Thyroglobulin, identifying and determining "purity" of, 462
 Tissue-freezing apparatus for erytomes, 324
 Toad test for pregnancy, 436
 Total protein nitrogen ratio of human serum, 42
 Total serum cholesterol analysis with gas-liquid chromatography, 450
 Tourniquet-induced stasis effect on blood determinations, 134
 Toxicology
 dithizone and polarographic determinations for lead, 652
 paper chromatographic differentiation of important phenothiazines in toxicology, 648
 L-Triiodothyronine- I^{131} , results of uptake of, by red blood cells, 562
 Typing patients prior to transfusion, bromelin Rh slide test for, 129
 Uptake of L-triiodothyronine- I^{131} by red blood cells, 562
 Urea nitrogen determination with heat-coagulated blood and serum, 342
 Urethritis, isolation of *Neisseria catarrhalis* from patients with, 360
 Urinalysis
 falling drop method for determination of specific gravity of urine, 235
 Maltese cross phenomenon in sediments from normal and abnormal urine, 419

Original articles—Continued**Urinalysis—Continued**

rotating microscope stage for urine sediments, 209

Urinary total, aqueous, and ether-soluble porphyrins, 531

Urine, Maltese cross phenomenon in sediments from normal and abnormal 419

Uterus, carcinosarcoma of, 496

Vein, greater saphenous, leiomyosarcoma of, 73

Venous blood in capillary tubes, for determination of standard clotting time, 321

Ward Burdick award contribution, 214

Wasp stings, fatal anaphylactic reactions to, 485

Water supplies, carcinogenic effects of adsorbates of, 475

Weighing dehydrated bacteriologic mediums, measuring spoon as substitute for, 546

Whole blood, effect of red cell factors on relative viscosity of, 464

Xanthogranulomatous pyelonephritis, 616

Case reports

Acute disseminated penicilliosis. Report of a case and review of pertinent literature, 167

Adenoma originating in struma ovarii, 383

Ameloblastic adenomatoid tumors. A report of four new cases, 59

Anti-B isohemagglutinins in the serum of a patient with a weak red cell B antigen, 355

Arteriosclerosis of aortic sinuses, 506

Carcinosarcoma (malignant mixed mesodermal tumor) of the uterus, 496

Chronic subcutaneous abscesses caused by pigmented fungi, a lesion distinguishable from cutaneous chromoblastomycosis, 598

Diffuse fatty degeneration of the myocardium. Report of two cases, 365

Endometrial stromal sarcoma, 273

Fatal anaphylactic reactions to wasp stings. A review, with immunologic studies of a fatal case, 485

Hereditary spherocytosis and infectious mononucleosis, with acquired hemolytic anemia. Report of a case and review of the literature, 284

Infiltrating lipomas of the thigh, 66

Intramural fibroma of the heart, 374

Leiomyosarcoma of the greater saphenous vein.

Report of a case and review of the literature, 73

Long survival with islet cell carcinoma of the pancreas, 137

Medulloblastomas with distant metastases, 148

Presacral ependymoma. Case report and review of the literature, 161

Xanthogranulomatous pyelonephritis, 616

Laboratory suggestions

A new device for collecting capillary blood, 661

A substitute for glass coverslips, 177

Convenient pipet rack, 114

The use of the infrared heat lamp for paraffin embedding and blocking, 85

Diagnostic patterns

Diseases of bone, 178

Eggs of helminthic parasites of man, 512

Lesions of the pancreas, 289

Lesions of the stomach, 79

Protozoal infections, 626

Vesicular lesions of the skin, 389

Editorial

An extremely simple test, 630

Letters to the Editor

An automatic diluting buret, 326

Modified stage for microscopes, 112

Present application and standardization of staphylococcal phage-typing, 184

Preventive clinical pathology, 633

Samples of human bone for radiochemical analyses, 293

TABLE OF CONTENTS

JANUARY TO JUNE, 1963

Number 1, January 1963

Photographs

Harold D. Palmer, President, American Society of Clinical Pathologists, 1962-1963.	1
Robert W. Coon, President-Elect, American Society of Clinical Pathologists, 1962-1963; William O. Russell, Vice President, American Society of Clinical Pathologists, 1962-1963.	2
Cytogenetics. Review of Recent Advances in a New Field of Clinical Pathology. ROBERT R. EGGEN. .	3
Osmotic Error. In Electronic Determinations of Red Cell Volume. DONALD B. NEVIUS.	38
Total Protein/Protein Nitrogen Ratio of Human Serum. A Factor Consistent with Total Solids. EMMA DEL CARMEN CHIARA VIGLIO, A. V. WOLF, AND PHOEBE G. PRENTISS.	42
Observations on the Pathogenesis of Carcinoid Heart Disease and the Tanning of Fluorescent Fibrin by 5-Hydroxytryptamine and Ceruloplasmin. HAMPTON R. BATES, JR., AND RICHARD F. CLARK. .	46
Laminated Macrosections of Organs. A New Method for the Demonstration of Gross Pathology. ROGER A. CÔTÉ, RUSSELL M. MAYNARD, AND AGNES KORTHY.	54
Ameloblastic Adenomatoid Tumors. A Report of Four New Cases. MERRILL T. CINA, DAVID C. DAHLIN, AND ROBERT J. GORES.	59
Infiltrating Lipomas of the Thigh. S. DONALD GREENBERG, CHRIS ISENSEE, AMADOR GONZALEZ-ANGULO, AND STUART A. WALLACE.	66
Correction.	72
Leiomyosarcoma of the Greater Saphenous Vein. Report of a Case and Review of the Literature. HOWARD D. DORFMAN AND ELLIOTT R. FISHEL.	73
Diagnostic Patterns. Lesions of the Stomach. S. E. GOULD, D. L. HINERMAN, J. G. BATSAKIS, AND P. R. BEAMER.	79
Topics in Microbiology	
Noncaseous Granuloma—Compatible with Boeck's Sarcoid—Etiology to Be Determined. LYLE A. WEED.	83
Laboratory Suggestion	
The Use of the Infrared Heat Lamp for Paraffin Embedding and Blocking. ELLEN S. SLAUGHTER. .	85
In Memoriam	
Frederick Glynn Ellis, M.D. WILLIS P. BUTLER, SR.	87
Plinn Frederick Morse, M.D. JAMES G. WOLTER.	88
Joseph Isaac Schleifstein, M.D. VICTOR N. TOMPKINS.	88
News and Notices.	90
A Uniform Bilirubin Standard. Recommendations of CAP Standards Committee.	90
Organization Section.	92

Technical Section

Determination of the Concentration of Ammonia Nitrogen in Plasma by Means of a Simple Ion Exchange Method. GRANT E. MILLER AND JOHN D. RICE, JR.	97
An Evaluation of the Sanborn Cell Counter. HARRY W. LETTS.	104
Letter to the Editor	
Modified Stage for Microscopes. THOMAS N. LIDE.	112
Laboratory Suggestion	
Convenient Pipet Rack. SISTER M. THEODINE WELLNER.	114

Number 2, February 1963

The Morphology of Reed-Sternberg Cells in Bone Marrow. YONG H. YANG AND S. D. PALMER.	115
The Reticulocyte Count as an Indicator of the Rate of Erythropoiesis. MARTIN J. CLINE AND NATHANIEL I. BERLIN.	121
A Bromelin Rh Slide Test for Rapidly Typing Patients Prior to Transfusion. B. C. ELLIS.	129
Effect of Tourniquet-Induced Stasis on Blood Determinations. JOHN D. MULL AND WILLIAM R. MURPHY.	134

Long Survival with Islet Cell Carcinoma of the Pancreas. JULES A. KERNEN, GEORGE SCOFIELD, CHARLES KOUCKY, ROBERTO E. BENITEZ, AND LAUREN V. ACKERMAN	137
Medulloblastomas with Distant Metastases. HAROLD A. OBERMAN, WILMER C. HEWITT, JR., AND ANDREW J. KALIVODA	148
Presacral Ependymoma. Case Report and Review of the Literature. MARY H. HEATH	161
Acute Disseminated Penicilliosis. Report of a Case and Review of Pertinent Literature. SHAO NAN HUANG AND LEE S. HARRIS	167
A Simple Parabiotic Chamber for Cell Culture Studies. J. E. PRIER	175
Laboratory Suggestion	
A Substitute for Glass Coverslips. JACK C. NORRIS	177
Diagnostic Patterns. Diseases of Bone. S. E. GOULD, D. L. HINERMAN, J. G. BATSAKIS, AND P. R. BEAMER	178
Topics in Microbiology	
Saprophytic Acid-Fast Bacilli in Granulomas. LYLE A. WEED	182
Letter to the Editor	
Present Application and Standardization of Staphylococcal Phage-Typing. VALERIE HURST	184
In Memoriam	
John Geoffrey Snively, M.D. BENJAMIN C. TANCINCO	185
News and Notices	187
Organization Section	188

Technical Section

Electrophoresis of Serum Proteins in Acrylamide Gel. II. An Improved Apparatus and Technic for the Removal of Background Stain, by Means of an Electric Current. THOMAS G. FERRIS, ROBERT E. EASTERLING, AND RICHARD E. BUDD	193
Serologic Relations that may Lead to Erroneous Diagnoses of <i>Escherichia coli</i> Infections by Means of Fluorescent Antibody Techniques. B. R. DAVIS AND W. H. EWING	198
A Method for Collection and Radioassay of Specimens of Human Stools. R. L. HAYES	203
Acetone and Acetone Bodies in Serum. JOSEPH PAUL MADONIA	206
Rotating Microscope Stage for Urine Sediments. WILLARD R. FAULKNER AND THOMAS F. O'MARA, JR.	209

Number 3, March 1963

Ward Burdick Award. Remarks by the Recipient in 1962. LORENZ E. ZIMMERMAN	213
Clinical Pathology of Iris Tumors. Ward Burdick Award Contribution. LORENZ E. ZIMMERMAN	214
Presidential Address. RICHARD E. PALMER	229
Falling Drop Method for Determination of Specific Gravity of Urine. MARTHA WINSTEAD, N. D. SISSON, AND R. L. MARKEY	235
"Sporadic Goiter Syndrome": A Clinicopathologic Analysis. JOHN G. BATSAKIS, RONALD H. NISHIYAMA, AND ROBERT W. SCHMIDT	241
Pathology of Acute Salt Poisoning in Infants. NORMAN W. ELTON, WILLIAM J. ELTON, AND JOSE P. NAZARENO	252
Atypical Cells of Origin from the Seminal Vesicles, Complicating Cytologic Evaluation of Prostatic Secretions. MARTA GARRET AND FRANK C. HAMM	265
Endometrial Stromal Sarcoma. IRWIN M. WEISBROT AND N. A. JANOVSKI	273
Hereditary Spherocytosis and Infectious Mononucleosis, with Acquired Hemolytic Anemia. Report of a Case and Review of the Literature. G. L. DeNARDO AND J. P. RAY	284
Diagnostic Patterns. Lesions of the Pancreas. S. E. GOULD, D. L. HINERMAN, J. G. BATSAKIS, AND P. R. BEAMER	289
Letter to the Editor	
Samples of Human Bone for Radiochemical Analyses. GEORGE W. GAFFNEY	293
Abstracts of Papers. Scientific Sessions of the Annual Meeting of the American Society of Clinical Pathologists, September 1962	294
News and Notices	305
Organization Section	306

Technical Section

Estimation of Cholesterol in Serum. By Means of Improved Technics. HARRISON H. LEFFLER AND C. HAYDN McDUGALD.	311
A Laboratory Procedure for the Identification of Semen. A Preliminary Report. WILLIAM F. ENOS, GEOFFREY T. MANN, AND WILLIAM D. DOLAN.	316
The Standard Clotting Time. A Method Based on the Use of Whole Venous Blood in Capillary Tubes. GEORGE F. MEISSNER AND CONSTANCE M. MOEHRING.	321
Improved Tissue-Freezing Apparatus for Cryotomes. CRAIG W. FREEMAN.	324
Letter to the Editor	
An Automatic Diluting Buret. JERRY K. AIKAWA, JACQUELINE Z. REARDON, AND ALBERTA PLYM.	326
News and Notices.	328

Number 4, April 1963

Uptake of Lipid Stains by Lipids and Serum Lipoproteins. OLE A. SCHJEIDE, ARTHUR U. RIVIN, AND JOSEPHINE YOSHINO.	329
Analyses Performed with Heat-Coagulated Blood and Serum. II. The Determination of Urea Nitrogen. JESSE H. MARYMONT, JR., AND MORRIS LONDON.	342
Evaluation and Calibration of an Electronic Particle Counter for Enumeration of Multispecies Blood Cells. W. G. WISECUP AND B. G. CROUCH.	349
Anti-B Isohemagglutinins in the Serum of a Patient with a Weak Red Cell B Antigen. ALICE J. CLAFLIN AND HORACE H. ZINNEMAN.	355
Isolation of <i>Neisseria catarrhalis</i> from Three Patients with Urethritis and a Clinical Syndrome Resembling Gonorrhea. C. D. GRABER, R. C. SCOTT, W. E. DUNKELBERG, JR., AND K. R. DIRKS.	360
Restoration of Rust-Stained Formalin-Preserved Gross Specimens. THOMAS N. HAVILAND.	364
Diffuse Fatty Degeneration of the Myocardium. Report of Two Cases. MIGUEL MARIN-PADILLA, RAYMOND M. MCGILL, JR., AND JAMES A. SHAKA.	365
Intramural Fibroma of the Heart. JAMES A. FREEMAN, JACK C. GEER, W. S. RANDALL, JR., AND WILLIAM G. PALFREY.	374
Adenoma Originating in Struma Ovarii. ALEXANDER S. BOBSCZKY, N. A. JANOVSKI, AND S. B. GUSBERG.	383
Diagnostic Patterns. Vesicular Lesions of the Skin. S. E. GOULD, D. L. HINERMAN, J. G. BATSAKIS, AND P. R. BEAMER.	389
Nomenclature of Abnormal Hemoglobins.	393
Abstracts of Special Papers. Council on Clinical Chemistry, American Society of Clinical Pathologists, September 1962.	395
<i>In Memoriam</i>	
George N. Papanicolaou. JOHN G. KIDD.	400
George R. Moffitt. JOHN E. KURTZ.	406
News and Notices.	407
Organization Section.	413
Book Review.	418

Technical Section

Observations on the Maltese Cross Phenomenon (Anisotropic Fat Crystals) in Sediments from Normal and Abnormal Urine. ALBERTO DAYSOG, JR., AND HAROLD L. DOBSON.	419
Indole-Spot Test in Bacteriology. RUDOLF VRACKO AND JOHN C. SHERRIS.	429
Rapid Technic for Obtaining Leukocytes from Small Samples of Blood. WALTER B. SHELLEY.	433
Comparison of an Immunologic and a Toad Test for Pregnancy. ROY N. BARNETT.	436

Number 5, May 1963

Cytochemistry of Leukocyte Alkaline Phosphatase. Use of Complex Naphthol AS Phosphates in Azo Dye-Coupling Technics. LEONARD S. KAPLOW.	439
Analysis of Total Serum Cholesterol by Means of Gas-Liquid Chromatography. LEO P. CAWLEY, BILLY O. MUSSER, SALLY CAMPBELL, AND WENDELL FAUCETTE.	450

Evaluation of a Serum Optical Density Method for Excluding Malabsorption. JAMES B. GABRIEL, ERIC VORSANGER, DANIEL T. BEER, AND MARTIN SASS.....	456
A Rapid Method for Identifying and Determining the "Purity" of Thyroglobulin. MELVYN ROSENBLATT AND MORRIS GOODMAN.....	462
Effect of Red Cell Factors on the Relative Viscosity of Whole Blood. MAX M. STRUMIA AND MARTHA PHILLIPS.....	464
Carcinogenic Effects of Adsorbates of Raw and Finished Water Supplies. W. C. HUEPER AND W. W. PAYNE.....	475
A Hemagglutination Reaction of Mothers and Infants of Different ABO and Rh Groups. SHELDON C. SOMMERS, CHARLES E. WEBER, AND EGLI REEVES.....	482
Fatal Anaphylactic Reactions to Wasp Stings. A Review, with Immunologic Studies of a Fatal Case. WILLIAM F. McCORMICK.....	485
"Swiss Cheese" Nuclei—an Incubation-Induced Lesion of Infectious Mononucleosis Lymphocytes. ABOLGHASSEM GHAEMI AND ARTHUR J. SEAMAN.....	492
Carcinosarcoma (Malignant Mixed Mesodermal Tumor) of the Uterus. FRANK VELLIOS, RICHARD W. STANDER, AND CARL P. HUBER.....	496
Arteriosclerosis of the Aortic Sinuses. WILLIAM F. ENOS, JAMES C. BEYER, AND ROBERT H. HOLMES.....	506
Diagnostic Patterns. Eggs of Helminthic Parasites of Man. S. E. GOULD, D. L. HINERMAN, J. G. BATSAKIS, AND P. R. BEAMER.....	512
Topics in Microbiology. Cat-Scratch Disease. LYLE A. WEED.....	516
News and Notices.....	518
Organization Section.....	519
Book Reviews.....	524

Technical Section

Urinary Total, Aqueous, and Ether-Soluble Porphyrins. FRANK S. SCHLENKER, CORA L. DAVIS, AND CYNTHIA L. KITCHELL.....	531
Evaluation of the Sanborn-Frommer Particle Counter for Counting Leukocytes. GREGORY G. HOLTHUSEN, FREDERICK J. WENZEL, AND MARY ANN KIPP.....	541
A Micro Method for Detection of Utilization of Phenylalanine by Microorganisms. LOIS M. BERGQUIST AND RONALD L. SEARCY.....	544
Use of a Measuring Spoon as a Substitute for Weighing Dehydrated Bacteriologic Mediums. SIDNEY J. KLEIN AND JAMES E. SNELLEN.....	546

Number 6, June 1963

Studies of Nickel Carcinogenesis. Alterations of Ribonucleic Acid Following Inhalation of Nickel Carbonyl. F. WILLIAM SUNDERMAN, JR.....	549
Selection of Formula for the Expression of Results of the Uptake of L-Triiodothyronine- I^{131} by Red Blood Cells. W. NEWLON TAUXE, JAMES L. BECTON, AND MITSUE Y. YAMAGUCHI.....	562
A Rapid Method for Microelectrophoresis and Quantitation of Hemoglobins on Cellulose Acetate. JOHN L. GRAHAM AND BENJAMIN W. GRUNBAUM.....	567
A Clinical Test for Galactosemia. The Galactose-Methemoglobin Test. GEORGE J. BREWER AND ALVIN R. TARLOV.....	579
The Demonstration of Prostatic Origin of Seminal Stain Acid Phosphatase. HAROLD REINSTEIN, NORBERT BENOTTI, AND ARTHUR J. MCBAY.....	583
The Changing Pattern of Staphylococcal Infections and its Relation to Antibiotic Sensitivity. With Special Reference to Dimethoxyphenyl Penicillin. JUNE A. KINSLEY AND RALPH M. MYERSON.....	586
An Evaluation of the Latex Flocculation Test in the Diagnosis of Pregnancy. AVIS M. OLSON AND JOSEPH E. ADDUCCI.....	589
A Simple Technic for Biopsy of Skin for Cytogenetic Investigations. JOSEPH MASTERSON.....	593
Chronic Subcutaneous Abscesses Caused by Pigmented Fungi, a Lesion Distinguishable from Cutaneous Chromoblastomycosis. RICHARD L. KEMPSON AND WILLIAM H. STERNBERG.....	598
Secondary Lipidosis of Spleen Associated with Thrombocytopenia and other Blood Dyscrasias Treated with Steroids. J. M. HILL, R. J. SPEER, AND HAYRUNNISA GEDIKOGLU.....	607
Xanthogranulomatous Pyelonephritis. S. M. SAEED AND GERALD FINE.....	616
